### **Adkins Arboretum Offers Waterfront Landscape Design Program Nov. 9**

Waterfront properties present homeowners with a slew of both daunting challenges and precious opportunities. Learn to address the challenges and embrace the opportunities on Sat., Nov. 9, when landscape designer and native plant enthusiast Chris Pax presents Designing for Waterfront Landscapes at Adkins Arboretum.

A graduate of the George Washington University sustainable landscape design master's program, Pax will discuss ideal plants for waterfront landscape conditions and will review some of the special rules and regulations that apply to waterfront properties. Participants may bring plat diagrams and photos and will have the opportunity after the program to ask questions about their property.
