Preschool and homeschool programs will be held outside this fall. Families should enter over the side bridge and meet their instructor on the patio. Make-up dates will be scheduled for classes that are canceled due to inclement weather.

Should students need to enter the Visitor’s Center, they will be required to wear masks, both for their safety and for the safety of our staff and volunteers, some of whom are immunocompromised and/or have children and other family members unable to receive the COVID vaccine.

Your help and consideration are appreciated as we strive to offer stellar programming and keep everyone safe and healthy.
